Subject: Data request

Shalom:

I have received a request from an engineering student working with EDM Consulting, for water quality data for Lake Micmac. In accordance with our contract 3.02(b), HRM will not provide data for purposes other than an HRM study without your consent. The described purposes are: as background data for development of a road salt management plan for Dartmouth Crossing Limited for a site adjacent to Lake Micmac; and also for an engineering student work-term report for Waterloo University.

What is your position on this request?

Thanks  
Tony
