Subject: chironomid photo

Hi, my name is Greg Norton and I'm with the Institute of Urban Ecology, a non-profit organization in Vancouver, BC. I am currently creating an education program for elementary school children about the Fraser River.

One of our stations will be about the biology in the Fraser and I would like your permission to use a photo of a chironomid that I found on your website. Please let me know if this is possible. Thank you,

Greg Norton
