Good Morning

We, My Wife Ginesta and I, are new to Nova Scotia. We are enjoying the abundance of space and comparatively relaxed lifestyle. To describe Ginesta and I, we are environmental enthusiasts who love and respect the world we live in.

We have arrived here from B.C. in early December last year and are trying to find out if "A" Lake, near Fletchers Lake, is as clean and protected as it seems.

A phone number and address for the Water Conservation Society of Nova Scotia or any information you may have would be greatly appreciated.

Thank You

Kyle Wyenberg
