Subject: Image Permission

Dear Lake Manager,

I am writing on behalf of the Muhlenberg College Environmental Education Outreach Program in Allentown Pennsylvania, where we offer K-12 field studies to local school districts. We are preparing an Aquatic Ecology lesson plan module with pre and post trip activities that includes resources such as PowerPoint slides, handouts, overheads, etc. Our educational outreach will also include creating a support Web site for teachers consisting of PDFs of the modules and downloadable materials.

We would like permission to use your picture of the clam which you will find on page five of the enclosed PowerPoint outline "Aquatic Indicator Organisms." The picture will be acknowledged on the slide with text stating, "Photo reprinted with permission from the Soil and Water Conservation Society of Metro Halifax, <http://lakes.chebucto.org>." We would be happy to include additional acknowledgement if you so request. The image will be included in the PDF of the module and in a PowerPoint presentation that will be available on our Web site. Teachers can obtain the module and PowerPoint for free by downloading, or at a nominal cost to cover the expenses of the printed version.

Please send acknowledgement and permission for use of the enclosed image via e-mail or letter in care of Muhlenberg College. If you have any further questions about the environmental outreach program or intent of use, you may contact me anytime by phone or e-mail.

Thank you for your cooperation.

Sincerely,
Laurie Rosenberg
Director of Environmental Education Outreach
